

Transcript

A transcript is a list of all of your high school report card grades that is sent to colleges when you apply. All high school report card grades are listed on your transcript. So, if you get a bad grade in ninth grade, it will be printed on your transcript and sent to any college you apply to in twelfth grade.

Since Algebra and/or Geometry are A-G classes, if you take them in middle school, your middle school report card grades in those classes will also be printed on your transcript.
